Portfolio: LINK

## EDUCATION

**Amrapali Institute of Technology** — Uttarakhand, India
Bachelor of Technology; GPA: 7.7 — **June 2019 - August 2022**
**Govt. Polytechnic College** — Uttarakhand, India
Diploma in Computer Science; GPA: 6.70 — **June 2015 - August 2018**

## SKILLS SUMMARY

- **Skills**: C++, JavaScript, TypeScript, Nodejs, Nestjs, React, Mongodb, Postgres, WebSocket, Rest Api's
- **Platforms**: Visual Studio Code
- **Soft Skills**: People Management, Good communication

## WORK EXPERIENCE

**BACKEND DEVELOPER | WA | LINK** — **Nov 23- Present**

- Designed and developed high-performance server-side logic for web applications, ensuring responsiveness..
- Developed and implemented PhonePe/PayPal payment functionality, ensuring secure and seamless transactions within projects..
- Collaborated cross-functionally with front-end developers, designers, and stakeholders to seamlessly integrate backend and frontend components, ensuring cohesive user experience..
- Designed and implemented robust database structures tailored to project requirements, optimizing data storage and retrieval efficiency.
- Implemented robust security protocols, including encryption, authentication, and authorization mechanisms, to safeguard application integrity and data confidentiality against unauthorized access..

## PROJECTS

**StudyNotion (Edtech WA) | LINK** — **Dec 23- Apr 2024**

- Implemented a robust signup process utilizing OTP (One-Time Password) verification to mitigate bot users and enhance security.
- Integrated Razorpay payment feature, enhancing user experience and facilitating seamless transactions.
- Developed the comprehensive dashboard solution for tracking student and instructor progress within the educational platform
- Revolutionized user engagement with course feedback feature, informing future improvements.

**BuzzChat(Messaging WA) | LINK** — **Sep 23- Oct 2023**

- BuzzChat a real-time messaging web application developed using the MERN stack (MongoDB, Express.js, React, Node.js).
- Implemented real-time communication features with Socket.io for instant messaging capabilities.
- Implemented under-sampling and ensemble techniques to address class imbalance, leading to 15% improved performance.
- Successfully mitigated fraudulent transactions while optimizing model efficiency by 23% and accuracy by 6%.

**LetsWrite(Blogging WA) | LINK** — **Jul 23- Aug 2023**

- LetsWrite, a user-friendly blogging web application, enabling users to create and publish blog posts efficiently.
- Spearheaded the implementation of HIPAA-compliant data encryption protocols across all healthcare solutions, decreasing data breach incidents by 40% and ensuring patient privacy and security.
- Demonstrated commitment to ethical data practices while contributing to the development of data-driven healthcare solutions.
- Enhanced healthcare outcomes by 26% through accurate prediction of heart disease, positively impacting patient well-being.

## CERTIFICATES

**Programming in Python (Meta) | CERTIFICATE** — **March 2023**

- Mastered fundamental Python syntax, proficiently utilizing control flow, loops, functions, and data structures.
- Acquired expertise in procedural programming paradigms and associated logical concepts, enhancing capabilities.

**Introduction to Data Analyst (IBM) | CERTIFICATE** — **March 2023**

- Learned about the data ecosystem, including the ETL process and big data basics.
- Mastered data gathering, identification, and cleaning for analysis preparation.

**Foundations: Data, Data, Everywhere(Google) | CERTIFICATE** — **March 2023**

- Developed a comprehensive understanding of the data life cycle and various stages involved in the data analysis.
- Introduced to diverse applications designed to streamline and optimize the data analysis journey, enhancing efficiency and accuracy.
